

CONTRACT REGARDING ACCESS TO EXTENDED OPENING HOURS

Welcome as a user of the Ullensaker public library's extended opening hours. This contract gives users above the age of 18 access to the library during extended opening hours. To use the extended opening hours, you must always register with your upgraded library card and PIN before entry.

The library is a public and shared space, and it is for the use and enjoyment of everyone in it. By upgrading your library card into an access-card to the extended opening hours, you agree to follow these simple rules:

- Be considerate to other users.
- Clean up after yourself.
- Keep noise level low and behave respectfully.
- The contract and the library card are strictly personal and only you can use the card as an admission card. This means you cannot let other people into the library. Violation of this condition may result in the suspension of the right to use the extended opening hours of Ullensaker public library.
- Follow the current lending rules and regulations.
- In case of fire, leave the area.
- In case of lost/stolen library card, contact the library immediately.

Parents / guardians can bring children under the age of 18 to the library. For the safety of the children, they should not be left alone during the extended opening hours. Everyone above the age of 18 must have their own, upgraded library card.

There is video surveillance in the library and recordings are stored safely in accordance with applicable laws and regulations. The surveillance is for your safety and for the protection of the library's inventory and equipment. Vandalism will be reported to the police. Visiting the library during the extended opening hours is on your own responsibility.
